RE: Request for Approval of Transfer of Notice of Intention from Dick Stone to Unique Minerals, Inc., Unique Minerals Mine, S/027/074, Millard County, Utah

On September 13, 2002, the Division received a Transfer of Notice of Intention of Small Mining Operations from Dick Stone (d.b.a. - Unique Minerals) to transfer the Unique Minerals mine to Unique Minerals, Inc. When the Small Mining Notice was originally received it was submitted under Richard Stone as the operator, not Unique Minerals, Inc. The company requests that the notice be registered and permitted under the company name (Unique Minerals, Inc.) rather than Richard Stone, an individual, as the operator.

A detailed map showing the site location and access route was not included with the transfer notice. We requested and received a topographic map from the BLM (Fillmore Office) that shows the project location. On December 19, 2002, Mr. Gerald McCurdy, who represents Unique Minerals, Inc., came in to our office to confirm the accuracy of the BLM map. He initialized the map that is attached to the transfer document.

If you are in agreement with the acceptance of the transfer of this mining project, please sign and date the transfer notice. We will then prepare a letter acknowledging Unique Minerals as the new operator and release Dick Stone (as an individual) from any further reclamation responsibility at the site. Thank you for your consideration of this request.
